

Change the Multi-Factor Authentication (MFA) Options for Your Microsoft 365 Account

1. Sign in to [Microsoft 365](#) using your CUNYfirst credentials and second verification method.
2. Click [here](#) or scan the QR code below to open the **Additional security verification** page.
3. Choose your preferred verification option. Please note: Although all options are listed, it is recommended that you use the Microsoft Authenticator App. Please refer to [Setting up the Microsoft Authentication App](#) for step-by-step instructions.
4. Set up one or more of the options.
5. Click **Save**.
6. Click **Close**.
